Portable Radios Comparison

F70

F70D / F80D

F9011B / F9021B

F9011S / F9021S

F9011T / F9021T

Applications

Analog systems with no current plans to migrate to P25.

Expand current or build new analog systems by using grant money for P25 upgradeable radios (also I.S. applications).

Analog systems planning to migrate to P25 conventional.

Operate analog now with gradual migration to digital conventional operation (also I.S. and FIPS 140 applications).

Analog, digital conventional, and digital trunked systems.

Add-on to current analog or digital systems, build new conventional or trunked digital systems, operate analog and digital conventional with a gradual migration to multi-site digital trunking & network.

Modes

- Analog
- P25 upgradeable

- Mixed analog & P25 conventional

- Mixed analog & P25 conventional & P25 trunked

General Specs

- 5W (VHF) / 4W (UHF)
- 256 Channels
- 32 Zones
- Mil-Std 810-F
- 10 Key pad (T versions)

- 6W/5W (VHF/UHF)
- 512 Channels
- 128 Zones
- Mil-Std 810-F

- 10 Key pad (T version)
- 4 Key pad (S version)
- “Cosmetic interoperability” (toggle & A/B/C)
- 4 Way navigation key

Waterproof

- MIL - STD 810 F
- IP57 – submersible, 1m, 30 minutes

- IP57 – submersible, 1m, 30 minutes, and dust resistant
- MIL - STD 810 F

Display

- 2 line, 12/24 character, full dot matrix

• No

- 2 line, 12/24 character, full dot matrix
- Soft key labels

TX Specs

- | | |
|----------------------|-------------|
| • Spurious emissions | 70 dB |
| • Adjacent channel | 70 dB |
| • Audio distortion | 3% |
| • Frequency error | +/- 2.0 ppm |
| • 9 Pin connector | |

- | | |
|----------------------|--------------------------|
| • Spurious emissions | 75 dB (70 dB HT version) |
| • Adjacent channel | 70 dB |
| • Audio distortion | 2% |
| • Frequency error | +/- 1.0 ppm |
| • 14 Pin connector | |

RX Specs

- | | |
|---------------------|--------|
| • Spurious response | 80 dB |
| • Adjacent channel | 75 dB |
| • Hum & noise | 45 dB |
| • Audio output | 500 mW |

- | | |
|---------------------|--------|
| • Spurious response | 80 dB |
| • Adjacent channel | 78 dB |
| • Hum & noise | 50 dB |
| • Audio output | 1W BTL |
